Space Attack can be easily played with one hand on the small touch screen and is a short action game that will keep you interested. There are three different attacks, namely shooting, which is to shoot bullets, melee, which is to attack the enemy using the weapon, and wide area, which is to shoot at the front of the screen and is the ultimate weapon. There are four kinds of weapons, namely missile, wide area, 1 and 2. If you shoot a missile weapon, it explodes when it hits the enemy. Wide area attacks are used to eliminate enemies. The price of weapons is

determined by the number of levels each weapon has achieved. If you do not have enough money, you can purchase weapons or items that are necessary to acquire a new weapon. There are also item items that are sold for an amount of money, so it is a good idea to have a good balance. There are six stages in the game, each with a different amount of enemies.
