The mystery of the Red Sector in the game Amelon is set in the early game of the third millennium, a time when each character has its own personality and the three states of being: I am coming into existence, I am emerging from the womb or I have already emerged and I have to exist. These three states of being are based on the science of the three constants of time: past, present and future. Amelon will take you into these three states of being, which you must decide about. In which of them you want to reside. The two spheres from the mythology of Amelon are based on: Earth and Universe. With its story of the evolution of the Solar system we will see how their inhabitants are created from the elements out of which they are born. The adventure will be filled with events and stories, but there is also a secret story concealed in the game. As a player you will make choices, which will change the way of the storyline and also decide who the hero of Amelon will be. Online achievements will be added as well. Controls: The player can use the W, A, S, D keys and mouse left click. Keyboard shortcuts are: W (Start) = Click A (Jump) = Right Click S (Walk) = Left Click D (Aim) = Middle Click You will have to help the child of one of the main characters enter the womb. You will have to get him out of there before he or she is born. You will help him or her to face their destiny and also to determine what he or she will be like in their coming existence. You can also choose for the player to have the male or the female body. You can learn new things about the baby by asking the characters for help. Some characters will give you a clue to their state of being. You can also have experiences with special characters, who will go through the life of theirs and show you more about the world. There are other sub-games. As Amelon is a action adventure game with elements of role playing; you will

have quests. You will have to do them at the right time or you will not be able to finish the game. What do you have to do on your way? Find your way through the green sector, and you will find out. Demo:
